### DETAILED ACTION

1. This application is no longer suspended, and prosecution on the merits of this application is reopened on claims 209, 214, 218-220 and 222-228 considered unpatentable for the reasons indicated below:

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 209, 214, 218-220 and 222-228 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 224, 226 and 228 contains the trademark/trade name FLAG epitope. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe the amino acid sequence Asp Tyr Lys Asp Asp Asp Asp Lys and, accordingly, the identification/description is indefinite. The other claims are rejected for depending from these claims.

Art Unit: 1646

The FLAG eptiope sequence appears not to be disclosed in the instant specification. If this is the amino acid sequence that Applicants intend, Applicants in response to this office action can either amend the claims to delete FLAG or must present evidence that the amino acid sequence Asp Tyr Lys Asp Asp Asp Asp Lys is what is meant by FLAG, and substitute the sequence in the claims.

***Conclusion***

4. No claim is allowed.
